VIII. ADDITIONAL INFORMATION OR EXPLANATIONS. *(Indicate part of report.)*

The John Hancock 401(k) information has been valued as of 12/31/18. I estimated the income and gains on the sale of the 401(k) assets because I could not obtain that information from John Hancock.

As per my broker, the cash value of the TransAmerica life insurance policies are held by TransAmerica and not a third party intermediary like a bank. I have Universal Life Insurance policies. To the extent the premiums exceed the basic cost of insurance, they are considered to be the cash value of the account but are left in the company's general account. The company uses the general account to pay claims, meet policyholder demands and set aside reserves against future claims as required by various State Insurance Commissioners. The company credits policyholder funds in the general account with interest. The company guarantees a minimum interest rate but may set the rate higher than the minimum. The interest crediting rates are set annually by management and approved by the Board.
