VIII. ADDITIONAL INFORMATION OR EXPLANATIONS. *(Indicate part of report.)*

(1) Part VII, page 6, line 50: The RiverSource Variable Universal Life Insurance Policy does not directly own any publicly-traded equity investments. The policy has investment units, not shares. According to the prospectus issued for the RiverSource Variable Universal Life Insurance Policy:

"A fund underlying the policy in which a subaccount invests may have a name, portfolio manager, objectives, strategies and characteristics that are the same or substantially similar to those of a publicly-traded retail mutual fund. Despite these similarities, an underlying fund is not the same as any publicly traded retail mutual fund. Each underlying fund will have its own unique portfolio holdings, fees, operating expenses and operating results. The results of each underlying fund may differ significantly from any publicly-traded retail mutual fund."

The investment units are not direct ownership in any actual publicly-traded retail mutual funds. Instead, the investment units are for purposes of participation in cloned mutual funds, set up and administered by the insurance company and its investment personnel, to mirror the performance of actual publicly-traded mutual funds.

The cloned publicly-traded mutual funds that have been chosen for this policy are as follows:
