VIII. ADDITIONAL INFORMATION OR EXPLANATIONS. *(Indicate part of report.)*

In Section I, line 4, Trust #1 is minimally funded (approx. \$400 in an account at US Bank) until my death, at which time the portion of my assets designated for her will flow into the trust.

In Section VII, line 4, the value depicted for the 3M Company Restricted Stock Units (unvested) is based on the market price of the stock at the time the report was created. Any vested RSUs are distributed to the individual stock account, which is reported in line 3.

In section VII, line 5, the value of the 3M qualified pension plan is an estimate. It is a defined benefit plan and I do not have access to information about the present value of that income stream, nor to information about "income" generated by that plan, as I have not yet begun taking the pension and its value to me will depend on when I start taking it and how long I live.

In section VII, line 6, the nonqualified portion of the 3M pension plan was paid to me after the reporting date, so will be reported as income on my next report. As noted above, I do not have access to information about "income" generated by that plan prior to the payout of the lump sum to me.

In section VII, line 7, the VIP Excess account does not generate interest or dividends - all gains are reflected in the increase in the value of the account.

In Section VII, various lines, where Column B(2) shows "None" for income, it is because the asset was purchased shortly before the end of the reporting period and no income had yet been realized.

In Section VII, line 20, the CollegeBound fund is a 529 plan that does not report dividends or interest. All gains are reflected in the increase in the value of the account.
